Institution/Place of Education

2015 - 2017

PERSONAL PROJECTS

weather App

- SKILL:
- API
- Flutter and dart
- using open weather data

ThankQ

- A Virtual Queueing App for Amusement Parks!
- Waiting for your favorite ride in a long queue is really frustrating, so we developed an app which delights guests and helps them beat the queue and have a joyous experience. Today's guests expect friction-free experiences, meaning long wait times, getting lost or missing out on activities just won't cut it. By connecting the entire guest journey with our mobile app, customer can ensure that every visit counts.

Dr. AQI

- Alarming level of Air Pollution in India
- Dr. AQI app provides **Real-Time AQI monitoring** and **mitigation strategy** for implementation as per severity of AQI level.

ORGANIZATIONS

GirlScript Summer of Code

Mentor:- I have contributed to many Open Source projects as a contributor but being a mentor in an Open Source program is something different. I was selected as a mentor in **GirlScript Summer of Code (GSSoC) 2022** for the project **Smart Home** and I am here to share my experience of helping the contributors to make contributions that count. I was responsible for mentoring the **Flutter(FrontEnd)** and **documentation** related issues and PRs.

ACHIEVEMENTS

Hack The League Hackthon

2nd Runner-up Winner : 10000 INR
